About the book:

In an era when special interests funnel huge amounts of money into our government-driven by shifts in campaign-finance rules and brought to new levels by the Supreme Court in Citizens United v. Federal Election Commission-trust in our government has reached an all-time low. More than ever before, Americans believe that money buys results in Congress, and that business interests wield control over our legislature. While America may be divided, Lessig vividly champions the idea that we can succeed if we accept that corruption is our common enemy and that we must find a way to fight against it. In REPUBLIC, LOST, he not only makes this need palpable and clear-he gives us the practical and intellectual tools to do something about it.
